Soft Skills: Teamwork, Communication, Time Management, Research, Problem Solving

---

Experience

Wakeed – ***Software Engineer*** Jun 2026 - Present
Syria - Damascus

Building Wakeed OS, the operations suite of Wakeed's cloud accounting platform, with one Flutter codebase for Android, iOS, Web and Windows. Developing HR (attendance, leaves, rosters, timesheets), projects & tasks, KPIs and dashboards with Bloc/Cubit, Dio and go_router, plus RTL support and Bitbucket Pipelines CI.

TaxiF – ***Software Engineer*** Nov 2025 - Jun 2026
Jordan

Contributed to the design and development of a multi-role HR management system covering attendance tracking, salary calculation based on working hours and performance-evaluation workflows.

Victory Arch Group – ***Mobile Application Developer*** Experience Certificate Sep 2023 - Jul 2025
Kuwait

Led development of scalable, maintainable Flutter apps and owned their App Store and Google Play releases. Delivered Kuwaiti government projects, including biometric attendance and employee systems for the Ministry of Electricity, Water and Renewable Energy, the Ministry of Finance and the Public Authority for Sport.

Gamma Tech – ***Mobile Application Developer*** May 2023 - Nov 2024
Syria - Damascus

Worked across the stack in a fast-paced startup: Flutter mobile apps, .NET back-end APIs and Angular web apps. Built and shipped New Park Agents (orders, tracking, returns and inventory) and RDS Box (smart-locker delivery) with Bloc, REST APIs and Firebase push notifications as part of an Agile team.

Education

Bachelor's Degree – Applied College in Computer Technologies Sep 2022 - Sep 2025
Damascus University Website Final Grade: 80%

Associate Degree – Technical Institute, Computer College Sep 2020 - Sep 2022
Damascus University Website Final Grade: 86.49%

Projects

Wakeed – *Wakeed*

Cloud accounting and business-management platform for SMEs: accounting, invoicing, inventory, cheques, financial reports, POS and a customer store. 10K+ downloads and a 5.0 rating on Google Play.

Available on Google Play Store, Apple App Store, Microsoft Store and Web
Wakeed POS: Microsoft Store and Web | Wakeed Store: Microsoft Store and Web

CmeEslah – *Victory Arch Group*

Streamlines purchasing for inmates: a registered “Payer” adds an inmate under their care and orders from a product catalog on their behalf, with every purchase tracked securely. 5K+ downloads.

Available on Google Play Store and Apple App Store

Alsafa Exchange – *Alsafa International Exchange*

Fintech app for a currency-exchange company: secure authentication and verification, fund transfers via intermediary banks, transaction history and account management. 5K+ downloads.

Available on Google Play Store and Apple App Store

Messilah Beach – *UPAC Kuwait*

Official app of a premium family beach club in Kuwait: explore facilities, book tickets and memberships with secure KNET payments, enter with QR-code passes and sign in with biometrics. 1K+ downloads.

Available on Google Play Store and Apple App Store

Clinic Code – *Freelance*

Medical-appointment platform of two connected apps: patients find doctors and book live slots with reminders, while clinics manage records, prescriptions and a real-time patient queue. 1K+ downloads.

Available on Google Play Store

Time Attendance – *Victory Arch Group*

Biometric and beacon-based attendance apps for the Ministry of Electricity & Water (MEW), the Public Authority for Sport (PAS) and the V-On Time SaaS, with native Kotlin/Swift beacon scanning.

MEW: Google Play Store | PAS: Google Play Store, Apple App Store | V-On Time: Apple App Store

New Park Agents – *Gamma Tech*

Order-management app for a distribution network: agents create orders and follow their status, with an archive of previous orders, returns and inventory, alongside a companion app for supervisors.
